

Vanishing Word Art

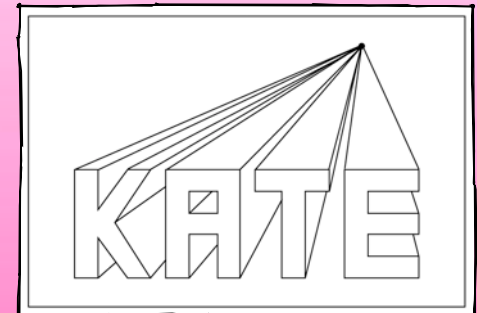

1. Write your name in block letters. Each line should be straight, not curved.

2. Choose where you want your vanishing point to be and mark it on the page.

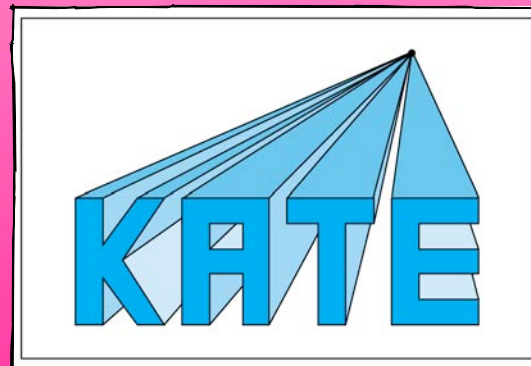

3. Using a ruler, draw a line from each of the top corners to the vanishing point.

4. Now draw lines from the other corners to the vanishing point but be sure not to stop when the line reaches part of a letter.

5. Colour your art. You could do the top, front and side a different colour...

...or you could choose one colour and do different shades. There are lots of options!

Try experimenting with different vanishing points or do both your names!
